It gives me immense pleasure in putting July-September 2012 issue of NCRB Newsletter before our readers. We are making concerted efforts in making the NCRB grow as medium of sharing information among States/UTs on Crime and Criminals through the CCTNS project. Our efforts have been paying dividends in launching this project. The two Joint Directors Sh. PRK Naidu and Smt. B. Radhika have been working overtime to keep timelines in implementing this project. Their efforts would bear fruition in the near future. The completion of capacity building infrastructure task in more than 97% locations is a big shot in our arm in achieving our objective of timely implementation of the CCTNS Project. The teams associated with CCTNS at NCRB as well in States/UTs at their respective locations deserve our accolades for their single minded devotion to this project. There are a number of stakeholders in this project and without the zeal that the NCRB team has shown progress would have been tardy.

During this quarter, we have released “Prison Statistics India-2011” and digital copy of the same is available on our website www.ncrb.gov.in. The untiring efforts of team lead by Sh. R.Rajasekaran, Deputy Director (Training) are commendable as his team has shown professional skills when they conducted a special training course on Finger Print Science for Afghan Police officers, which is in addition to the scheduled annual training calendar of NCRB.

Shri Shafi Alam
Director General, NCRB
The Training Branch of NCRB got the privilege to conduct Special Course on “Advanced Finger Print Science & Computers” for Afghanistan Police Officers from 17th August 2012 to 05th October 2012. This course was specially designed on the request of Afghanistan Government and sponsored by MEA, Govt. of India. The trainees were also taken to Agra and Jaipur as a part of Study tour to acquaint them with the India’s cultural heritage.

The Training Branch of NCRB also conducted two days workshop for Addl. SP/SsP on CCTNS from 12th - 13th September 2012. Knowledge transfer sessions between CCTNS strategic team and the officers were also held. Realising the importance of such training, the officers suggested to increase the duration of such courses in future from two days to three days and it was accepted by DG, NCRB.

A group of Trainees including senior Judges from NICFS visited NCRB on 12th September 2012 to acquaint themselves with the NCRB functioning. A small presentation was organized for these trainees. The trainees had interaction with DG, NCRB and other senior officers of the Bureau.
हमारा प्रयास—हिन्दी का विकास

महानिदेशक महोदय की अध्यक्षता में दिनांक 26.09.2012 को राज्यीय अपराध रिकार्ड ब्यूरो की राजभाषा कार्यान्वयन समिति की 85 वीं बैठक का आयोजन किया गया।

**Cyber Security**

- Never download a file or program in response to a warning from a program that you did not install or do not recognize. These warnings claim to protect your computer or offer to remove viruses. It is highly likely to do the opposite.
- Make sure that you install the latest service pack for your Windows operating system. A service pack (SP) is a Windows update that helps keep your computer up to date, well protected, and running smoothly. Service packs can include security, performance improvements, and support for new kinds of hardware. Microsoft releases its latest security updates for its software on the second Tuesday of each month.

**Configure Window Updates in 3 simple Steps**

1. Click **Start**, click **All Programs**, and then click **Windows Update**.
2. In the navigation pane, click **Change settings**.
3. Under **Important updates**, select the option that you want.
   Under **Recommended updates**, select the **Give me recommended updates the same way I receive important updates** check box, and then click **OK**. If you are prompted for an administrator password or confirmation, type the password or provide confirmation.

**Success Story - Central Finger Print Bureau**

Document case # 13/2012 received from INDIRA GANDHI INSTITUTE OF MEDICAL SCIENCES, PATNA (IGIMS), BIHAR presents a curious case of impersonation in the entrance examination to this prestigious college.

When the new session started, there was an allegation that some of the newly selected candidates hired professionals to write the entrance examination on their behalf. The IGIMS authority, after having taken note of the gravity of the situation, sought the help of CFPB/NCRB to unravel the mystery of the ghost exam writers.

The Vice Chancellor of IGIMS, then, sent a set of finger impressions each of the suspected candidates, recorded both during the entrance/counseling and during the classes at the Institute, to us for examination and expert opinion. Initially the finger impressions were proved to be difficult to examine as these were of poor quality. Yet after intense probe, with all available resources at our hand, it was found that indeed there were multiple cases of impersonations as finger impressions of the same persons were found to be different at different places (at entrance/counseling and in the classes at the Institute).
**CCTNS Progress Report - Milestones**

### Status of Core Application Software (CAS)

- CAS build III with interim save on IIF I & II was released on 16th of August 2012 and UAT round IV with users from four States was conducted on this build in the month of September.
